

## Quick Start Guide

V1.0

# ACE

Thermal Imaging  
Scope

ACE L35 / ACE H50 / ACE H50R / ACE S60R

**EN**

**Please read this manual before using the product, and keep the guide for future reference.**

For detailed information about the device, please download the complete user manual from the official website ([www.nocpix.com](http://www.nocpix.com)).

**DE**

**Bitte lesen Sie dieses Handbuch sorgfältig durch, bevor Sie dieses Produkt verwenden, und bewahren Sie es zum späteren Nachschlagen gut auf.**

Ausführliche Informationen über das Gerät finden Sie im vollständigen Benutzerhandbuch, das Sie von der offiziellen Website ([www.nocpix.com](http://www.nocpix.com)) herunterladen können.

**IT**

**Si prega di leggere questa guida prima di utilizzare il prodotto e conservarla per riferimento futuro.**

Per informazioni dettagliate sul dispositivo, si prega di scaricare il manuale d'uso completo dal sito ufficiale ([www.nocpix.com](http://www.nocpix.com)).

**FR**

**Veuillez consulter ce guide avant d'utiliser le produit et gardez-le pour vous y référer ultérieurement.**

Pour plus d'informations sur l'appareil, veuillez télécharger le manuel d'utilisation complet sur le site officiel ([www.nocpix.com](http://www.nocpix.com)).

**ES**

**Lea este manual antes de usar el producto y conserve la guía para referencia futura.**

Para obtener información detallada sobre el dispositivo, descargue el manual de usuario completo del sitio web oficial ([www.nocpix.com](http://www.nocpix.com)).

# **Important Safety Information**

## **Environmental influences**

Never point the lens of the device directly at intense heat sources such as the sun or laser equipment. The objective lens and eyepiece can function as a burning glass and damage the interior components.

## **Risk of swallowing**

Do not place this device in the hands of small children. Incorrect handling can cause small parts to come loose which may be swallowed.

## **Safety instructions for use**

- Handle the device with care: rough handling may damage the battery.
- Do not expose the device to fire or high temperatures.
- Install the batteries correctly according to the instruction on the device. Reverse connection is prohibited.
- The battery capacity decreases when operated in a cold ambient temperature. This is not a fault and occurs for technical reasons.
- Always store the device in a dry, well-ventilated space. For prolonged storage, remove the batteries.
- The recommended temperature for using this product is -20 ° to +50°. Otherwise, it will affect the service life of the product.
- Do not store the device for long periods at temperatures below 20°C or above 50°C, or this will permanently reduce the capacity of the battery.
- If the device has been damaged or the battery is defective, send the device to our after-sales service for repair.

## **EU Compliance Statement**

Wireless transmitter module frequency range:

WLAN: 2.412-2.472GHz (For EU)

Wireless transmitter module power < 20dBm (only for EU)

We, Inlumen Technologies Co., Ltd. hereby declares that the radio equipment types ACE are in compliance with the Directives 2014/53/EU and 2011/65/EU.

### **Disposal of batteries**

2023/1542 (Battery Regulation): This product contains a battery that cannot be disposed of as unsorted municipal waste in the European Union.

For battery details, refer to the documentation of the specific product. The battery is marked with this symbol, which may include Cd (indicating cadmium), Pb (indicating lead), or Hg (indicating mercury). For proper recycling, please return the battery to your supplier or send it to a designated collection point. For more information, visit [www.recyclethis.info](http://www.recyclethis.info).

### **User information on the disposal of electrical and electronic devices (private households)**

2012/19/EU (WEEE directive): Products marked with this symbol cannot be disposed of as unsorted municipal waste in the European Union. For proper recycling, return this product to your local supplier upon the purchase of equivalent new equipment, or dispose of it at designated collection points. For more information see: [www.recyclethis.info](http://www.recyclethis.info).

### **For business customers within the European Union**

Please contact your dealer or supplier regarding the disposal of electrical and electronic devices. He will provide you with further information.

### **Information on disposal in other countries outside of the European Union**

This symbol is only applicable in the European Union. Please contact your local authority or dealer if you wish to dispose of this product and ask for a disposal option.

## **Intended use**

The device is intended for displaying heat signatures during nature observation, remote hunting observations and for civil use. This device is not a toy for children.

Use the device only as described in this operating manual. The manufacturer and the dealer accept no liability for damages which arise due to non-intended or incorrect use.

## **Function test**

Before use, please ensure that your device has no visible damage.

Test to see if the device displays a clear, undisturbed image.

Check that the settings for the thermal imaging monocular are correct.

## **Installing/Removing the battery**

The ACE series uses a dual battery system with an internal battery and a replaceable 18650 battery. Please refer to the section of "Battery Install" for details on how to replace the 18650 battery.

## **FCC Statement**

FCC ID: 2BHFB-ACE-00

## **Labeling requirements**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

## **Information to the user**

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

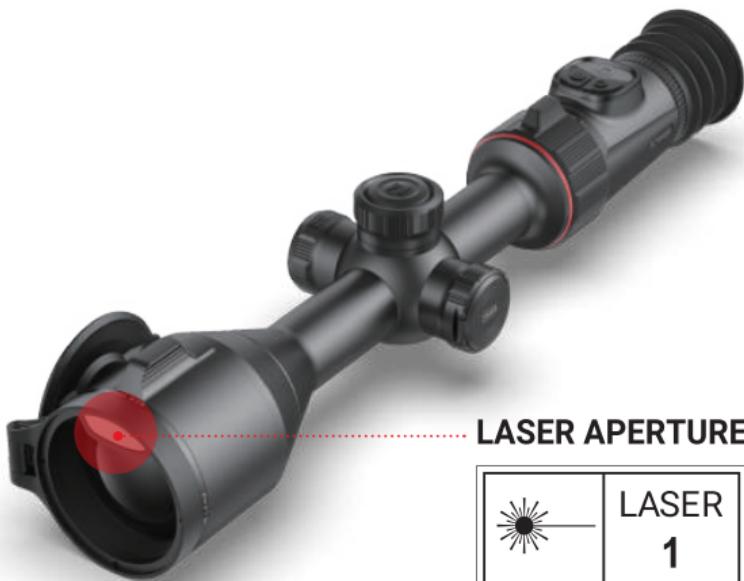

## **EMC: Class A**

Note: This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

To comply with RF exposure requirements, a minimum separation distance of 0.00 cm must be maintained between the user's body and the handset, including the antenna.

# Button Descriptions

ACE H50/ACE L35

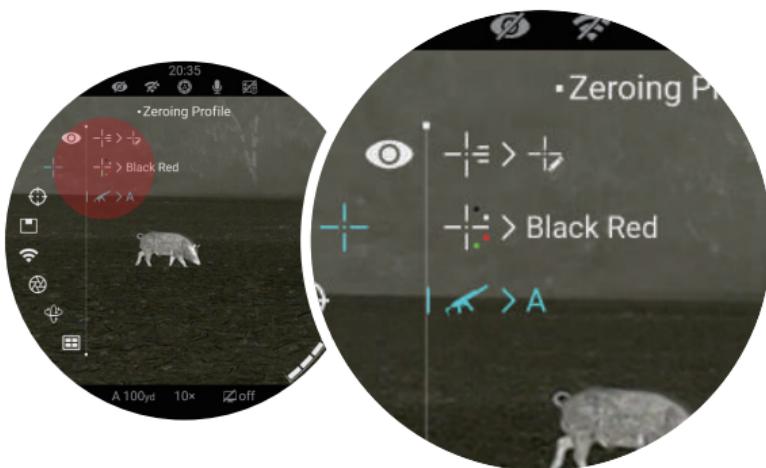

## Shortcut Menu

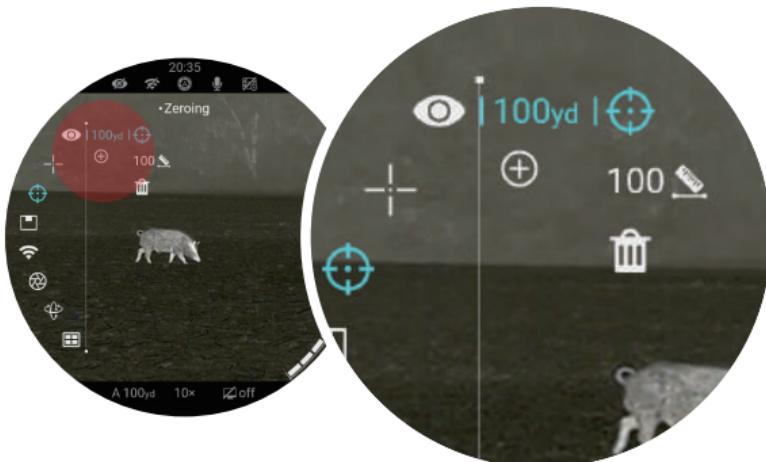

# |Zeroing

Set the zeroing profile to A, B, C, D, E, or F in “Reticle” “Zeroing Profile”.

Set a suitable target and take one good shot at the target.

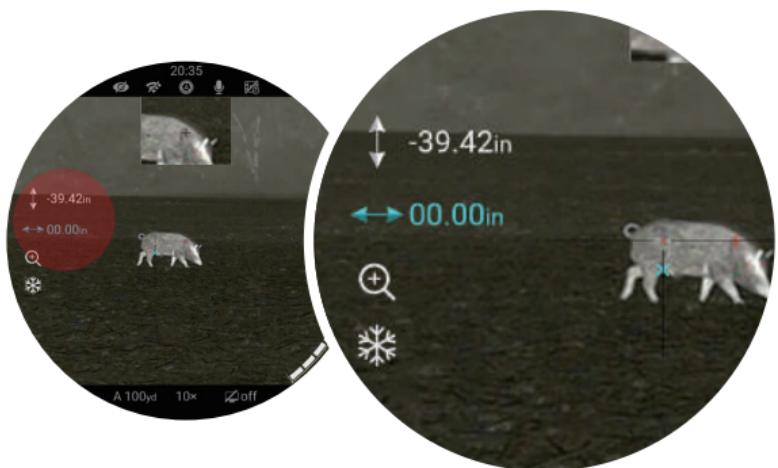

If the POI does not match the reticle, select the Image Freeze icon, short press the Menu button to freeze the image.

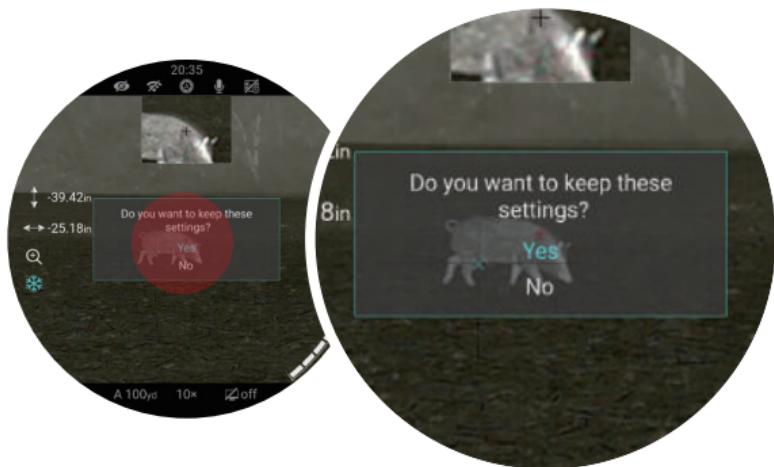

**Adjust the X/Y position of the reticle:**

- Short press the Menu button to select X or Y direction. The selected axis will turn from white to blue
- Rotate the controller to move the reticle position.
- A red cursor representing the original position of the reticle.

d. When the reticle matches the POI, long press the Menu button to save the reticle position.

**Shoot again to check POI matches the reticle or not.  
If not, do the zeroing again.**

## |Laser Rangefinder

ACE H50R/ACE S60R

**SGL** **0.3s**

**CONT** **1.0s**

# Ballistic Calculation

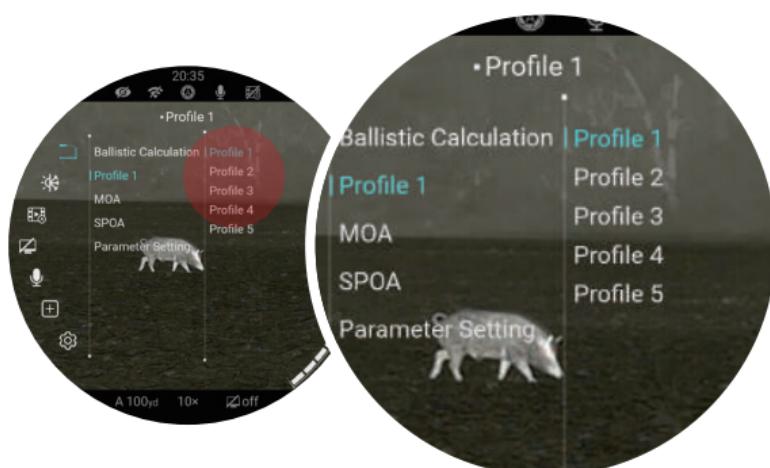

ACE H50R/ACE S60R

Set the Ballistic Calculation to ON.

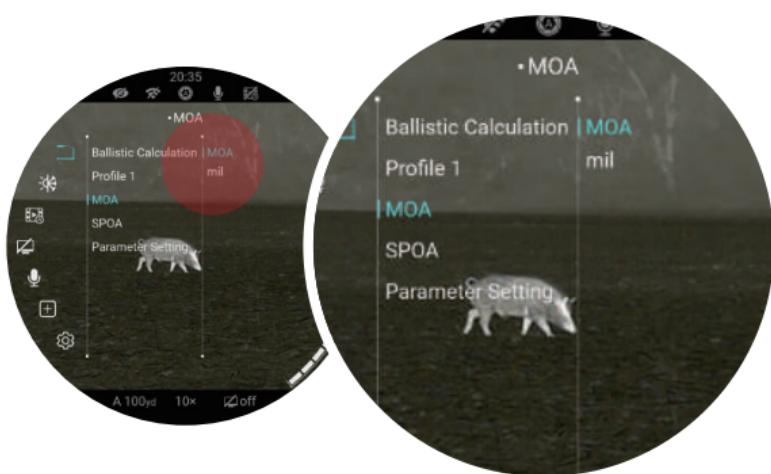

Select the bullet profile from 1 to 5.

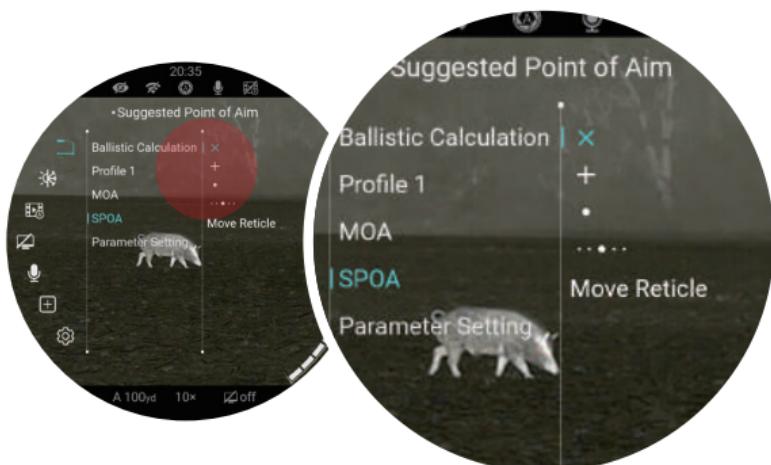

- i* You can also customize the bullet name through the NOCPIX APP.

**Set the unit to MOA or mil.**

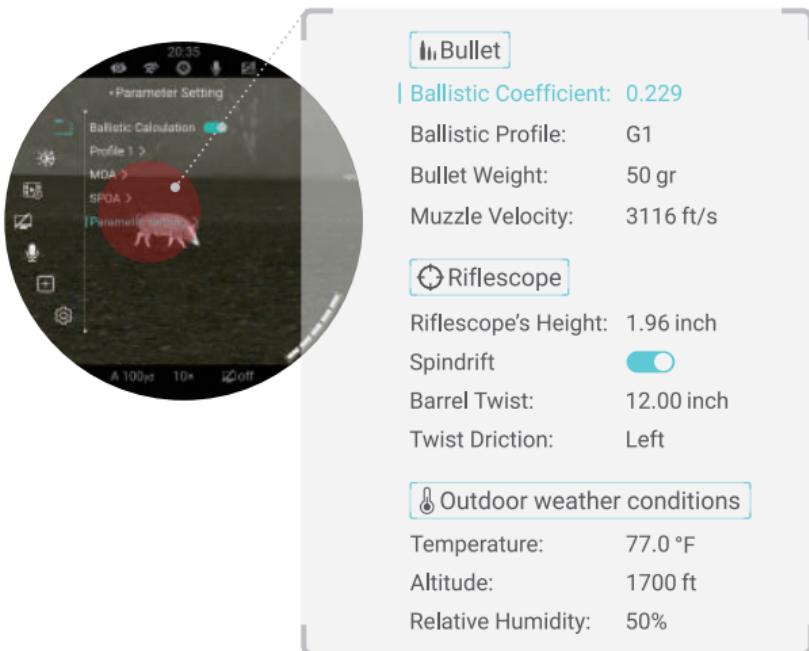

**Set the Suggested Point of Aim to  $\times$ ,  $+$ ,  $\bullet$  or  $\dots \dots$  ;  
When SPOA is set to Move Reticle, the ACE will automatically move the original reticle to the SPOA.**

## Set parameters of bullets, rifles, and the environment.

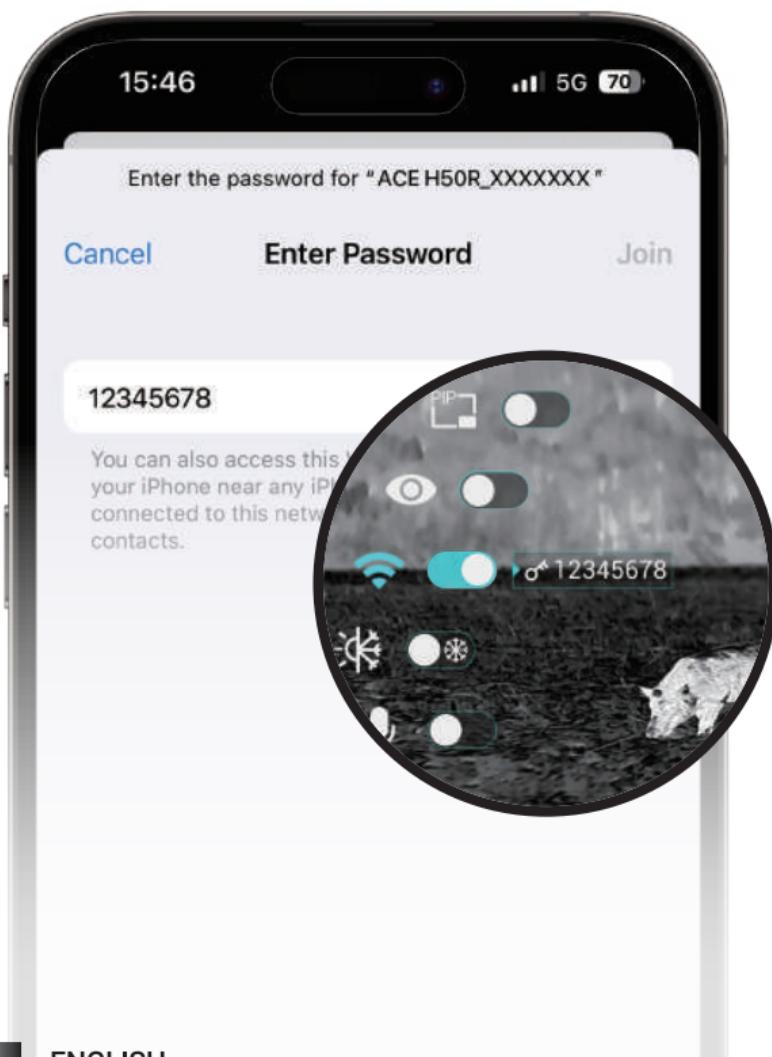

- Parameter settings can also be adjusted through the NOCPIX APP.

Once the settings are completed, a single ranging will prompt the recommended POI.

## Kontextmenü

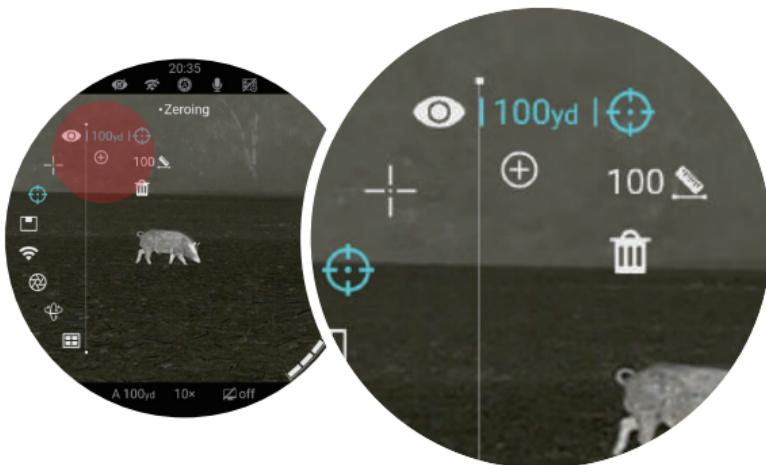

# Einschießen

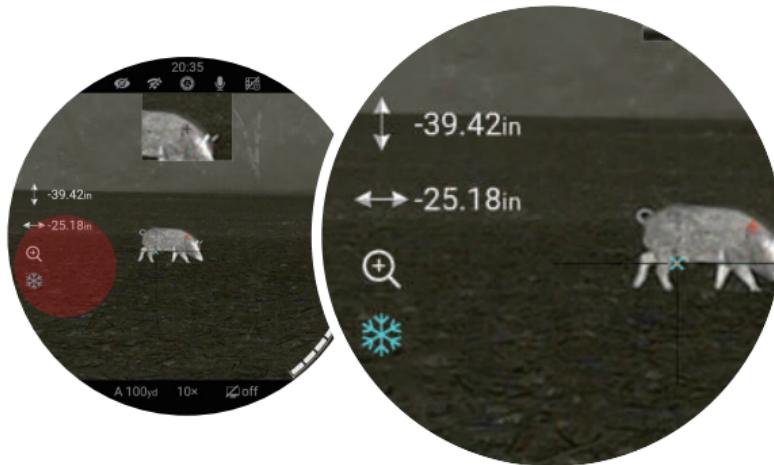

Stellen Sie das Einschießprofil auf A, B, C, D, E oder F unter „Absehen“ „Einschießprofil“ ein.

Legen Sie ein geeignetes Ziel fest und geben Sie einen guten Schuss auf das Ziel ab.

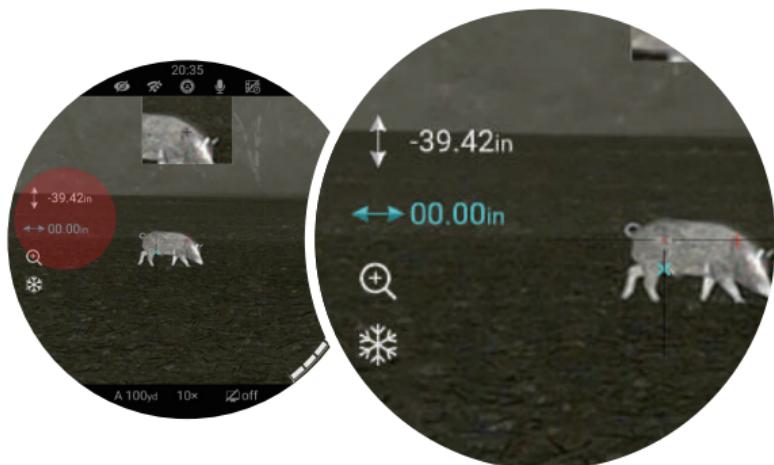

**Wenn der POI nicht mit dem Absehen übereinstimmt, wählen Sie das Symbol für das Einfrieren des Bildes und drücken Sie dann kurz die Menütaste, um das Bild einzufrieren.**

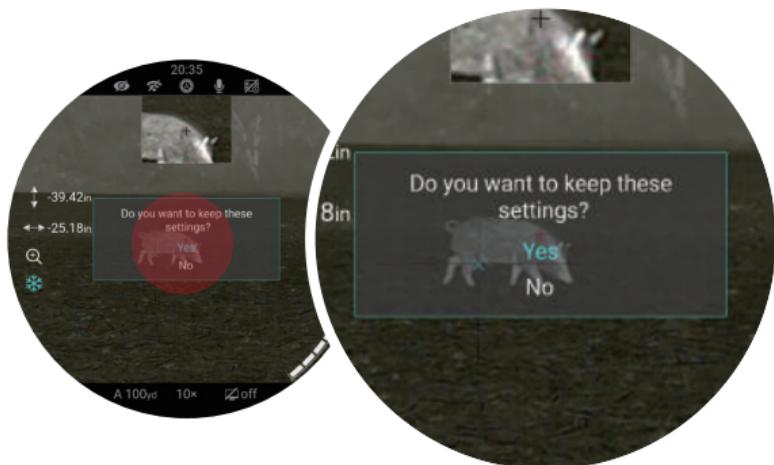

**Die X/Y-Position des Absehens anpassen:**

- Drücken Sie kurz die Menütaste, um die X- oder Y-Richtung auszuwählen. Die ausgewählte Achse wechselt von weiß zu blau.
- Drehen Sie den Regler, um das Absehen zu verschieben.
- Ein roter Cursor zeigt die ursprüngliche Position des Absehens an.

d. Wenn das Absehen mit dem POI übereinstimmt, halten Sie die Menütaste gedrückt, um die Absehenposition zu speichern.

Schießen Sie erneut, um zu überprüfen, ob der POI mit dem Absehen übereinstimmt oder nicht. Falls nicht, führen Sie das Einschießen erneut durch.

# Ballistische Berechnung

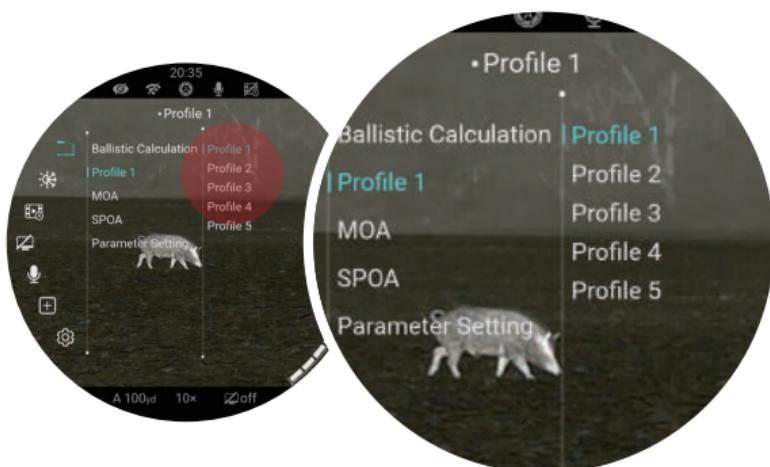

ACE H50R/ACE S60R

Stellen Sie die ballistische Berechnung auf EIN.

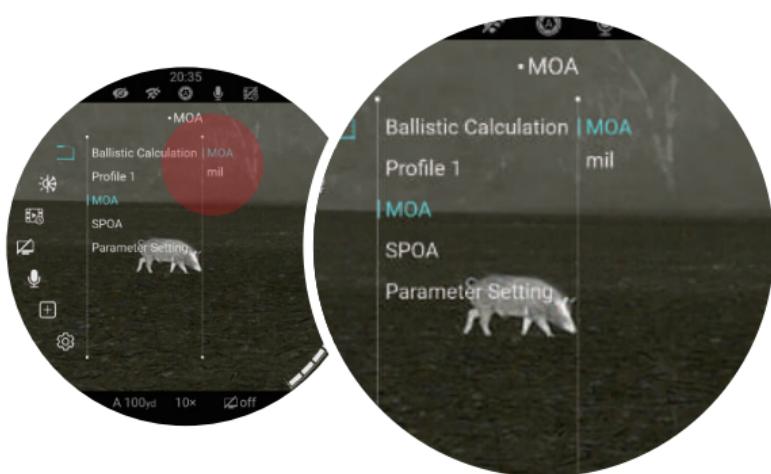

Wählen Sie das Geschossprofil von 1 bis 5.

- i Sie können den Namen des Geschosses auch in der APP „NOCPIX“ ändern.

**Stellen Sie die Einheit auf MOA oder mil ein.**

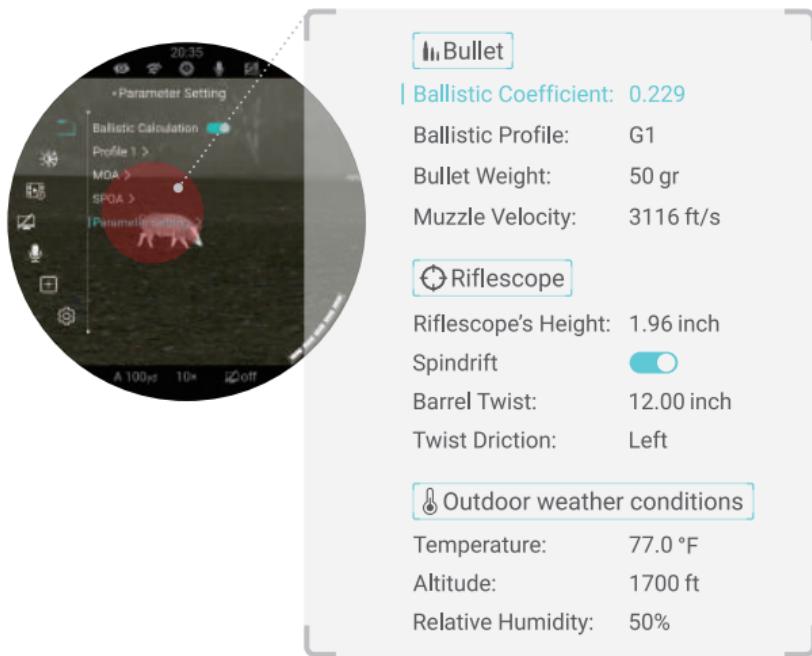

**Stellen Sie den vorgeschlagenen Zielpunkt auf  $\times$ ,  $+$ ,  $\bullet$  oder  $\dots \dots$  ein.**

**Ist SPOA auf „Absehen verschieben“ eingestellt, verschiebt ACE das ursprüngliche Absehen automatisch auf den SPOA.**

## Stellen Sie die Parameter für Geschosse, Gewehre und Umgebung ein.

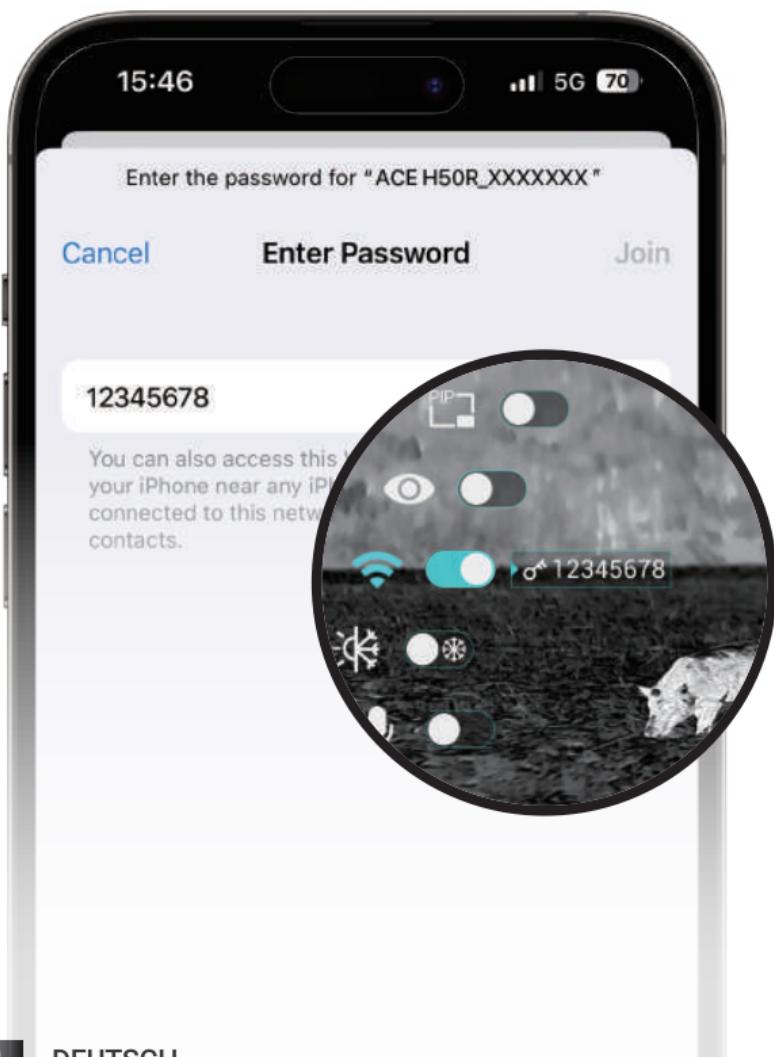

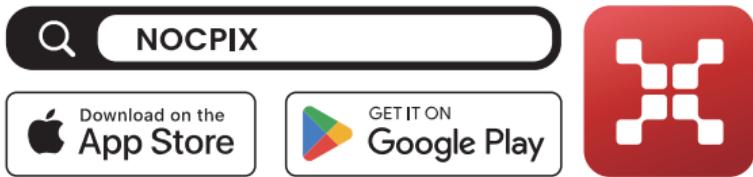

- ⓘ Die Parametereinstellungen können auch in der APP „NOCPPIX“ geändert werden.

Nachdem die Einstellungen abgeschlossen sind, wird der empfohlene POI für die einzelne Entfernungsmessung angezeigt.

# Azzeramento

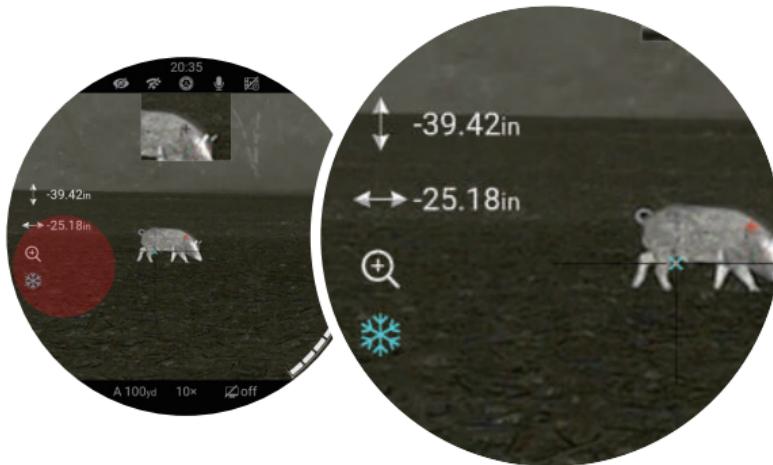

Imposta il profilo di taratura su A, B, C, D, E o F in "Reticolo" > Profilo di taratura.

Imposta un bersaglio adatto e sparagli un colpo preciso.

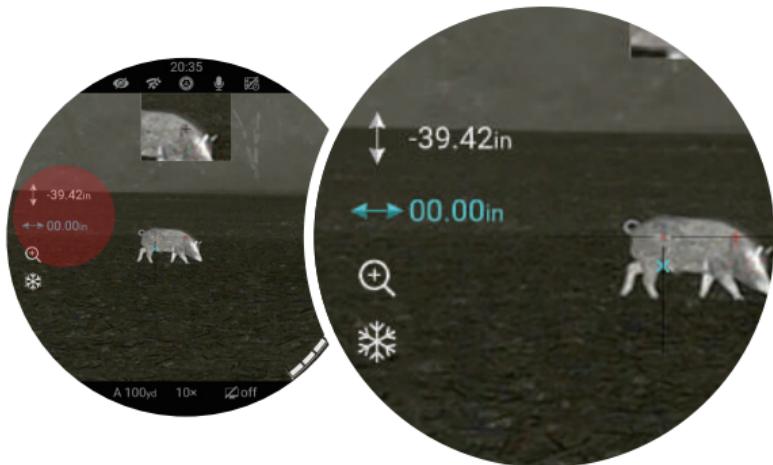

**Se il punto di impatto (POI) non corrisponde al reticolo, seleziona l'icona "Immagine fissa" e premi brevemente il pulsante Menu per congelare l'immagine.**

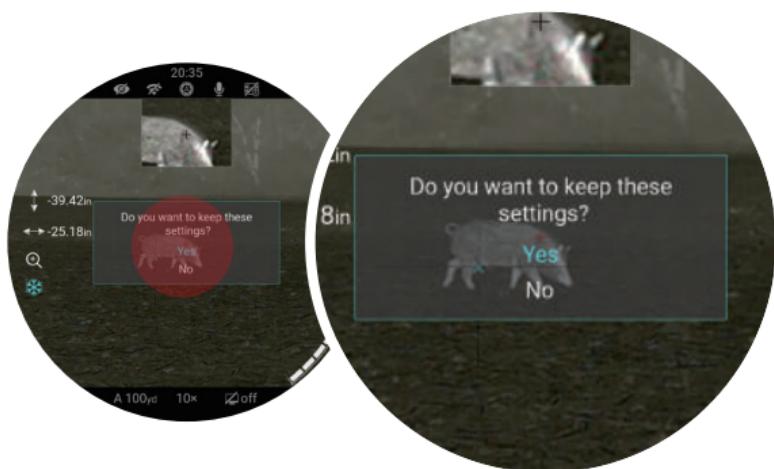

**In caso contrario, regola nuovamente la posizione X/Y del reticolo:**

- Premi brevemente il pulsante Menu per selezionare la direzione X o Y. L'asse selezionato cambierà da bianco a blu.
- Ruota il controller per spostare la posizione del reticolo.
- Un cursore rosso rappresenterà la posizione originale del reticolo.

d. Quando il reticolo corrisponde al punto di impatto (POI), premi a lungo il pulsante Menu per salvare la posizione.

**Spara di nuovo per verificare che il punto di impatto (POI) corrisponda al reticolo. Se non corrisponde, ripeti l'azzera-mento.**

## Menu contextuel

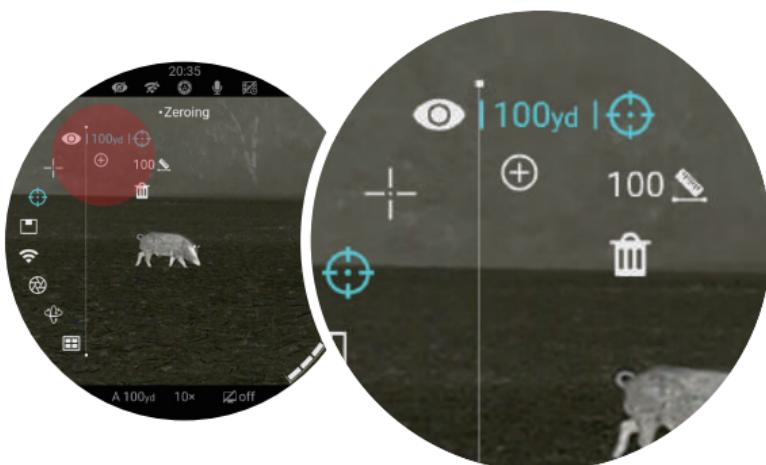

# Mise à zéro

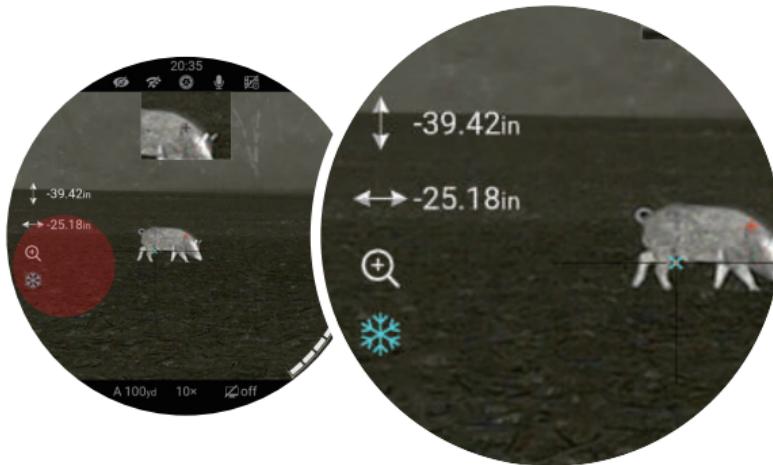

Réglez le profil de mise à zéro sur A, B, C, D, E ou F dans « Réticule » « Profil de mise à zéro ».

Définissez une cible appropriée, puis tirez sur la cible.

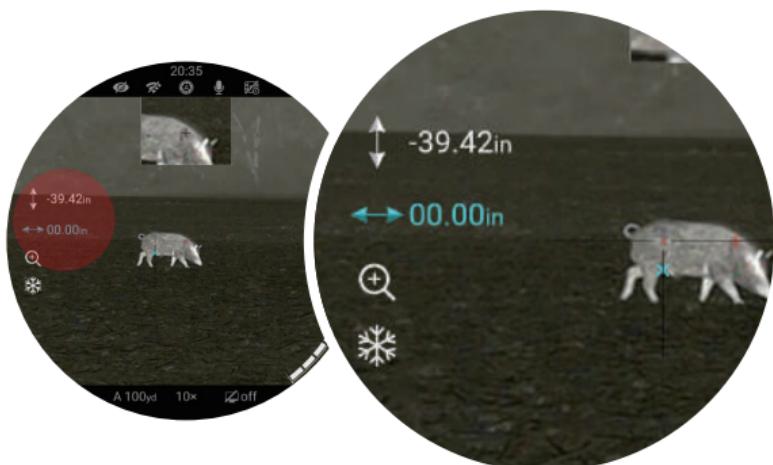

**Si le POI ne correspond pas au réticule, sélectionnez l'icône Gel de l'image et appuyez brièvement sur le bouton de Menu pour figer l'image.**

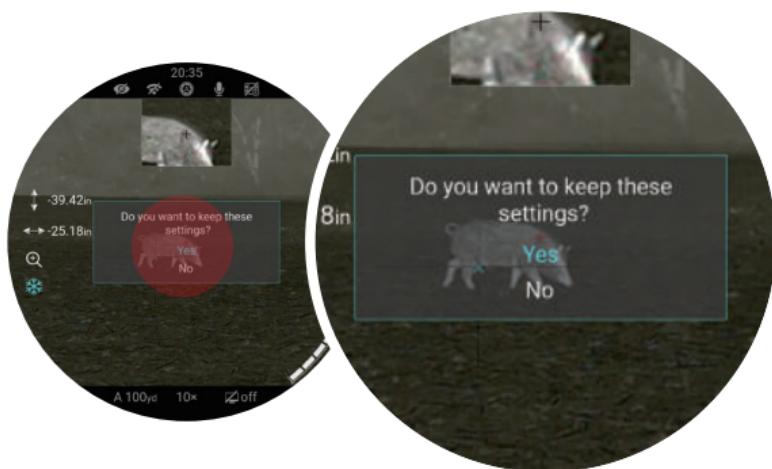

**Réglez la position X/Y du réticule :**

- Appuyez brièvement sur le bouton de Menu pour sélectionner la direction X ou Y. L'axe sélectionné passe du blanc au bleu.
- Tournez le contrôleur pour déplacer la position du réticule.
- Un curseur rouge représente la position initiale du réticule.

d. Lorsque le réticule correspond au POI, appuyez longuement sur le bouton de Menu pour sauvegarder la position du réticule.

Tirez à nouveau pour vérifier si le POI correspond au réticule.  
Si cela ne correspond pas, remettez-le à zéro.

# Especificaciones

Modelo	ACE L35	ACE H50
Resolución, píxeles	384x288/12µm	640x512/12µm
NETD, mK	≤18	≤15
Velocidad de Fotogramas, Hz		60
Lente de Objetivo, mm	35/F0.9	50/F0.9
Campo de Visión (H × V), °/m a 100 m	7.5x5.7/ 13.2x9.9	8.8x7.0/ 15.4x12.3
Ampliación, x	4~16	3~24
Zoom Ocular, x		1~3
Alivio ocular, mm		50
Dioptías, D		-5~+5
Alcance de Detección, m (Tamaño objetivo: 1,7 m × 0,5 m, P(n) = 99 %)	1800	2600
Pantalla	AMOLED 2560x2560	
Batería	Batería integrada / 4000 mAh + batería 18650 intercambiable	
Tiempo Máx. de Funcionamiento (t = 22 °C) h		7
Capacidad de Memoria, GB	64GB	
Clasificación IP		IP67
Temperatura de Funcionamiento, °C		-20 ~ +50
LRF, m		-
Peso, g (con batería)	1050	1090
Dimensión, mm	350x90x62	365x90x68

Modelo	ACE H50R	ACE S60R
Resolución, píxeles	640x512/12µm	1280x1024/12µm
NETD, mK	≤15	≤15
Velocidad de Fotogramas, Hz	60	50
Lente de Objetivo, mm	50/F0.9	60/F1.0
Campo de Visión (H × V), °/m a 100 m	8.8×7.0/ 15.4x12.3	14.7×11.7/ 25.6x20.5
Ampliación, x	3~24	2~24
Zoom Ocular, x		1~3
Alivio ocular, mm		50
Dioptías, D		-5~+5
Alcance de Detección, m (Tamaño objetivo: 1,7 m × 0,5 m, P(n) = 99 %)	2600	3100
Pantalla	AMOLED 2560x2560	
Batería	Batería integrada / 4000 mAh + batería 18650 intercambiable	
Tiempo Máx. de Funcionamiento (t = 22 °C) h	7	6
Capacidad de Memoria, GB	64GB	
Clasificación IP		IP67
Temperatura de Funcionamiento, °C		-20 ~ +50
LRF, m	1200 ±1	
Peso, g (con batería)	1120	1300
Dimensión, mm	365x90x68	390x90x71
